**Instructions & Information**

Activating your app is easy, just follow the simple steps below...

1. If you haven't already, download the app by clicking the "Download" button.
2. When the app opens, you'll be prompted with a window, click the "Enter License" button to the left of this window.
3. On the screen that opens enter your Email Address, and the License Code from the 'Activation Information' box below into the appropriate fields within the app.
4. When you've completed the above, just click the "Activate License" button. Within a few seconds your product should be activated for full use!
